HEADLINES:

Norplex-Micarta Appoints New Senior Marketing Specialist

Norplex-Micarta recently announced the addition of Randall Nesbit as the new Senior Marketing Specialist. [Click here](#) for more information.

PROVEN IN THE FIELD:

“Lead-Free Solder Pallet Material for Printed Circuit Board Applications”

Norplex-Micarta recently published an application article in the January issue of *JEC* on the use of WaveMax™ 6000 thermoset composite as a cost-effective solder pallet material. [Click here](#) for more information about WaveMax.

SPOTLIGHT ON TECHNOLOGY:

Norplex-Micarta Non-Adhesive Pre-Preg Materials Increase Molding Thru-put and Profitability

Norplex-Micarta announces a cost-effective line of non-adhesive pre-preg thermoset composites (b-stage products). The non-tacky materials are dry to the touch and therefore, do not require the release film found on conventional tacky pre-pregs. [Click here](#) for more information.

SPOTLIGHT ON TECHNOLOGY:

Norplex-Micarta Doubles Vertical Treater Capacity

Norplex-Micarta recently began installation of a second vertical treater in the company's Postville, Iowa global headquarters. This new addition will substantially increase the company's production capacity, resulting in more flexible production schedules and delivery times. [Click here](#) for more information.

UPCOMING EVENT:

The International Builders' Show 2007

Norplex-Micarta will be exhibiting *StormBlocker*™ at **The International Builders' Show 2007** in Orlando, Florida on February 7-10. Visit us at booth S10543 for more information on the *StormBlocker* product line.
