Norplex-Micarta Appoints Product Development Engineer

POSTVILLE, IA – Norplex-Micarta, the leading manufacturer of high performance thermoset composites, is pleased to announce the appointment of Timothy Delaney to Product Development Engineer at the company's Postville, IA headquarters. Mr. Delaney will be responsible for managing all aspects of product development, including manufacturing, testing, and incorporating customer feedback.

As Product Development Engineer, Mr. Delaney will also oversee all aspects of the manufacturing processes associated with new product development, in addition to working with manufacturing personnel and relevant equipment to ensure quality control.

Prior to his appointment, Mr. Delaney served as Project Engineer at Advanced Component Technologies. His responsibilities included managing start-up activities and development for new products, providing customer support, and implementing new handling systems. Mr. Delaney holds a Bachelor of Science in both Biomedical Science and Mechanical Engineering from Texas A&M University.

About Norplex-Micarta
