HEADLINES:

“Thermoset Protects Sensors from the Elements”

Norplex-Micarta recently published an application article in the November issue of *Reinforced Plastics*, discussing how its composite tubing materials met the high strength and protective requirements for the RD93 dropsonde, a hurricane tracking device. To acquire critical data for national weather forecasts, RD93 gathers information about atmospheric phenomena from a package of electronic instruments that are protected from severe hurricane conditions by a composite tube housing. SPOTLIGHT ON TECHNOLOGY:

New Pre-Preg Thermoset Composite for Slot Cell Insulation

Norplex-Micarta announces NP511B, a pre-preg thermoset composite used for slot cell insulation, steel coating, and other high temperature applications. [Click here](#) for more information.

NEW APPOINTMENT:

Pat Harms Appointed Manufacturing Engineering Manager

Norplex-Micarta has appointed Pat Harms to the position of Manufacturing Engineering Manager, where he will oversee all manufacturing engineering activities at the company's headquarters in Postville, Iowa. [Click here](#) for more information.

NEW APPOINTMENT:

Scott Loven Appointed Quality Assurance Manager

Norplex-Micarta recently announced the appointment of Scott Loven to the position of Quality Assurance Manager at the Postville, Iowa headquarters. Mr. Loven will be responsible for overseeing all quality assurance activities, including managing customer material and specification needs, coordinating with suppliers on material and/or process specifications, and identifying key material or process metrics. [Click here](#) for more information.

**UPCOMING EVENTS:
POWER-GEN International 2007**

Norplex-Micarta will be exhibiting at **POWER-GEN International 2007** in New Orleans, LA on December 11-13. Come see us at booth #1615 for more information.
