HEADLINES

**“New Steel-Composite Wall Sets Standard in Safe Room Security,”
IAPD Magazine, April/May 2006**

Norplex-Micarta recently published an article in the April/May issue of *The IAPD Magazine* on the use of phenolic-glass composites in embassy safe rooms. When used as part of a steel-composite wall, this material meets stringent standards for ballistic and forced-entry protection, despite its light weight. [Click here](#) to read the full text of the article.

IN THE NEWS

WaveMax™ Featured in June issue of *Composites Technology*

WaveMax was recently featured in the article “Reinforced Plastics Mold New Niches in Electronics,” which was published in the June issue of *Composites Technology*. WaveMax is a superior thermoset composite material for durable, high-temperature solder pallets. [Click here](#) to read the full text of the article.

PROVEN IN THE FIELD

“Composite Boards Improve Efficiency of Carton Manufacturing,” *The Cutting Edge*, April 2006

Norplex-Micarta also published an article in the April issue of *The Cutting Edge* on MC704, a new counter plate material used in precision creasing of paper sheets and cardboard. [Click here](#) to read the full text of the article.

SPOTLIGHT ON TECHNOLOGY

NP193PM Lowers Temperatures in Compressor Vane Applications

NP193PM is a high performance thermoset composite material that provides excellent dimensional stability and lower operating temperatures in compressor vane applications. [Click here](#) for more information.

UPCOMING EVENTS

Power-Gen Asia 2006, Composites & Polycon 2006

Norplex-Micarta will be exhibiting at **Power-Gen Asia 2006** in Hong Kong on September 5-7. Visit us at our booth #A30 for the latest in Norplex-Micarta product technology and solutions.

Norplex-Micarta will also be exhibiting at **Composites & Polycon 2006** in St. Louis, Missouri on October 18-20. Visit us at our booth #2343.

WaveMax™ is a trademark of Norplex-Micarta, Postville, Iowa.
