INVESTMENTS: Norplex-Micarta Invests in New Capital Equipment

Norplex-Micarta has recently installed a TA Instruments Dynamic Mechanical Analyzer (DMA), as well as a Model Q20 Differential Scanning Calorimeter (DSC) at its Postville, Iowa headquarters. The DMA is used to test a material's flexural response to temperature prior to shipping in order to guarantee that it meets customer specifications. The DSC equipment is used to measure the thermal change a material can undergo before it begins to soften, melt, or show other forms of a physical reaction. [Click here](#) for more information on the [DMA](#) or [DSC](#) equipment.

SPOTLIGHT ON TECHNOLOGY: Norplex-Micarta Announces Micro ID Tubing for High Performance Applications

Norplex-Micarta announces the availability of Micro ID convolute tubing materials, with inside diameters ranging from 0.094" – 0.187", and outside diameters ranging from 0.156" – 0.500". [Click here](#) for more information.

NEW APPOINTMENT: Dustin Davis Appointed International Operations and Engineering Manager

Norplex-Micarta announces the appointment of Dustin Davis to International Operations and Engineering Manager. Mr. Davis will be responsible for Norplex-Micarta's international supplier sourcing strategy, including foreign supplier qualification and development. [Click here](#) for more information.

NEW EUROPEAN DISTRIBUTOR: Norplex-Micarta Partners with European Distributor, DUGRO

Norplex-Micarta has selected German firm, DUGRO Kunststoff-Vertrieb, as our manufacturer's representative for Germany. Representative, Sabine Schwefer-Braun, will be responsible for handling Norplex-Micarta product distribution within Europe. [Click here](#) for more information.
